

At the beginning of 2022, Arizona State University (ASU) welcomed the American University Kyiv (AUK) as a member of the ASU-Cintana Alliance and launched new educational opportunities for Ukrainian students looking to pursue undergraduate and graduate degrees.

We recognize these challenging times in Ukraine, and we believe in the potential of the Ukrainian people. We are confident that, as a university *Powered by ASU*, AUK will be able to provide students with the opportunities they need and deserve to access high quality education in high-demand fields. Our deep partnership enables AUK to access ASU's online curriculum and expertise in digital learning, and insights into how to build world-class degree programs. Our mutual articulation agreements enable students in select programs of study to earn an ASU credential or degree along with an AUK diploma.

As a member of the ASU-Cintana Alliance, AUK will also be part of a global network of universities working together to improve the quality and access to higher education worldwide. Thus, AUK will also benefit from Alliance member insights on how to design opportunities for students to build meaningful careers and contribute to the growth and success of the region.

ASU is known for designing innovative academic programs with strong student outcomes at scale. We're proud to share this expertise with the world through our close collaboration with Cintana Education and, as a result of our partnership with AUK, to the Ukrainian nation. Our comprehensive, long-term partnership with AUK reflects ASU's commitment to supporting Ukraine and helping our colleagues build a better future for their country.
